

As a contractor with specialist skills, you demand the same from your accountants. At Plus Minus we specialise in providing expert accountants for contractors, offering crucial advice on sometimes little-known schemes and empowering you to overcome your own unique business challenges. Passionate about the service we provide, we take the time to understand your contractor goals and objectives, whatever field you're in and however big you dream.

Start-up support

Just starting out? Get off to a great start with specialist start-up support from Plus Minus. We guide our clients through the whole of the start-up process, from mapping a business plan and registering your company to bookkeeping, cash flow forecasting, VAT, and other supporting services. Better yet, getting us on board from the very beginning ensures that our services are intimately tailored to the challenges you're likely to face as you continue to expand your client base.

Tax returns

Let us take care of the paperwork so you can get on with the business. Our comprehensive tax return service covers annual accounts preparation and tax form submission, along with tax planning and mitigation support. Since we're always up to date with HMRC guidelines and legal tax loopholes, we'll endeavour to save you money and keep things moving forward.

Our typical clients

- Developers and CIS Contractors
- IT consultants
- Retailers and online businesses
- NHS professionals
- Health and fitness
- Landlords
- Restaurants and caterers
- Coffee and boutique shops

Advisory services

There's a lot of new jargon for contractors to learn, especially when they're just starting out. Even established professionals may fall behind on the ins and outs of every applicable compliance regulation. As dedicated accountants for contractors in London, we're always just a phone call away, offering:

- Business consultancy services
- Investment advice
- Investigation support and representation, and
- Continued advice on just about anything you'll encounter

Chartered accountants services

We're members of the Institute of Chartered Accountants in England and Wales (ICAEW), but we're not just another run-of-the-mill accountancy firm. Our specialist accountancy services are carefully designed for contractors who want the hands-on approach of a small accountancy firm but with the cutting-edge real-world experience of a top London financial advisor.

As a contractor, you're a talented specialist within your field, but your lack of familiarity with tax compliance issues and other legal obligations may be holding you back. We offer an effective, comprehensive advisory and support service to help you reach your potential and overcome unique business challenges in the strongest way possible.
